

Vincit Plc

Press release December 20, 2024 at 16:05 EET

**Vincit has been a target of a cyber-attack**

On the evening of December 12, 2024, Vincit became the target of a cyber-attack limited to ten customer companies. We immediately began investigating the situation and taking corrective action. The attack was ended the following morning.

We have been in contact with all the customers who were attacked and have been working closely with them, the Finnish Transport and Communications Agency (Traficom), the police and security experts for the past week. Vincit has also filed a criminal complaint.

Vincit's own network or data was not compromised, and the attackers did not have technical access to other Vincit customers.

"I am very sorry for what has happened. At Vincit, the security of our customers and ensuring their business continuity is of the utmost importance and we take this cyber-attack very seriously. We have taken all possible security measures together with our cyber-security experts and will continue to support the customers that were targeted," said Julius Manni, CEO of Vincit.
